

*Specialising in Oil/Gas Burners, Flame Monitoring and Ignition Systems*

## **ENVIRONMENTAL POLICY STATEMENT**

The Credfeld Group (to include Fuel Ignition Ltd.) Specialises in Design and Manufacture of Low NOx Burners, Flame Monitoring and Ignition Equipment. We have an established reputation for excellent customer service and developing products that are focused on directly reducing environmental emissions.

The Credfeld Group Is committed to greater eco-efficiency in its business practices and in support of this operates a fully integrated approach to management of our activities (QSHE). This ensures that whilst minimising negative environmental impacts arising from our business, we also focus our efforts on continual improvement and protection of the environment.

In order to achieve this aim The Credfeld Group has the following key objectives:

- To promote sound environmental management policies and practices throughout the Company;
- As a minimum, to comply with the requirements of relevant legislation applicable to our business and our products;
- To seek efficient and environmentally responsible use of resources such as energy and water;
- To promote environmentally responsible procurement of raw materials, goods and services considering the lifecycle perspective.
- To minimize waste through application of the waste heirarchy ie Eliminate, Reduce, Reuse, Recycle;
- To minimize transportation impacts arising from our own vehicles;
- To raise staff and contractor's awareness of The Credfeld Group's significant environmental impacts and to promote individual good practice.

In it's business operation The Credfeld Group is committed to effective management and we will work in conjunction with our staff and supply chain to ensure the requirements of this Policy are fully implemented.

Simon Vine
