

*Specialising in Oil/Gas Burners, Flame Monitoring and Ignition Systems*

## **QUALITY POLICY STATEMENT**

The Credfeld Group, to include Fuel Ignition Ltd., specialises in Design and Manufacture of Low NOx Burners, Flame Monitoring and Ignition Equipment. We have an established reputation for excellent customer service and developing products that are focused on directly reducing environmental emissions.

The Credfeld Group is committed to continual improvement in all areas of the business and in support of this operates a fully integrated approach to management of our activities (QSHE). Our main quality aim is to ensure excellent quality of product and service is central to everything that we do.

Our quality objectives are focused on:

- Providing a professional and responsive service to our customers.
- Providing technically competent, total solutions to satisfy customer and industry needs.
- A desire to proactively improve the products and services we provide.

In its business operation The Credfeld Group is committed to maintaining excellent customer relations and we will work in conjunction with our staff and supply chain to ensure the requirements of this Policy are fully implemented.
